Home Unit –
receives
notifications
and reports on
battery and
connection
status

LIFE SAVING AI TECHNOLOGY

1 Entrance Detection and Notification

Based mainly on strong video
analytics, as opposed to pool
alarms that alert on any
water movement, reducing
dramatically false alarms

2 Pre-Drowning & Drowning Detection and Alert

Detects and alerts 24/7 upon
any drowning scenario, the
most important feature in the
system – no other product for
residential pools provides such
capabilities

REGULAR POOL ACTIVITY

DROWNING
